EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Richard W. Bork on 12/08/06.

The application has been amended as follows:

In claim 1, last line, after "90 °C", insert - -wherein said protein passes through the microfiltration membrane- -.

In claims 15-20, line 1; delete "product", and insert - -protein- -.

In claim 23, line 1, after "the", insert - -protein is produced by a- -, and in line 2, delete "producing".

In claims 13; and 14, line 3, delete "product", and insert - -protein- -.

2. The following is an examiner's statement of reasons for allowance: claims 1 and 35, and dependent claims 2-20, 23, and 26-35 are allowed over the prior art of record. Performing the microfiltration separation within the temperature range claimed for proteins of type claimed in claim 29, or proteins having the claimed molecular weight are not suggested in the prior art of record. Reference '606 treats the protein containing solution at one degree lower than in the present invention and in presence of activated carbon or adsorbent material, and the recovered protein has a molecular weight higher

than the claimed molecular weight in the present invention. Reference 5,712,141 evidence that the molecular weight for cellulose is in the order of 146,000 Daltons and larger. The treatment of the specific proteins at the claimed conditions of claim 29 is not suggested in the prior art of record.

Patent 5,417,970 is added as teaching microfiltration follow by ultrafiltration of low molecular weight proteins in a broth, e. insulin; the operation temperature range as claimed in the present invention is not suggested in the reference.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ana M. Fortuna whose telephone number is (571) 272-1141. The examiner can normally be reached on 9:30-6:00 M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Wanda L. Walker can be reached on (571) 272-1151. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
